PROFESSIONAL SUMMARY

Passionate and detail-oriented QA Tester and MCA (Computer Applications) graduate with knowledge of bug tracking, test documentation, and QA tools like JIRA. Proficient in manual testing with a strong ability to identify functional, UI, and performance issues, ensuring stable and high-quality product releases. Practical experience in mobile application testing on Android and iOS, designing and executing test cases, and functional, regression, smoke, and sanity testing. Interested in building a career as an AI Developer, with hands-on experience developing AI-assisted applications. Strong communication, time management, and attention to detail, with a collaborative approach to working with developers and stakeholders.

AREAS OF INTEREST

- Manual Testing
- Mobile App Testing (Android & iOS)
- Functional & Regression Testing
- Vibe Coding
- Generative AI (GenAI)
- Test Case Design & Execution

WORK EXPERIENCE

TEST ENGINEER **June 11, 2025 - August 14, 2026**
SIDE, Bangalore

- Worked as the Point of Contact (POC) for 4 project features, coordinating with developers and stakeholders to ensure timely testing and issue resolution.
- Performed manual testing on Android and iOS mobile applications to ensure app stability and performance.
- Designed and executed test cases based on functional requirements.
- Performed various types of testing including functional, regression, smoke, sanity, exploratory, compatibility, UI/UX, and integration testing on mobile applications.
- Identified, documented, and tracked bugs and defects using JIRA and collaborated with developers for resolutions.
- Attended daily Scrum meetings and prepared scrum reports.
- Assisted in User Acceptance Testing (UAT) by validating business-critical workflows.

PROJECT WORK

1. HeartSync — Full-Stack Web App

Tech Stack: React 18, TypeScript, Node.js, Express, Prisma, PostgreSQL, Socket.IO, BullMQ, Redis, Firebase, Docker

- **Full-Stack Web App:** Built a real-time social web app using React 18, TypeScript, Node.js, Express, Prisma, and PostgreSQL. Source code managed with Git and hosted on GitHub.
- **AI-Assisted Development:** Developed using Google Antigravity AI and a vibe-coding workflow. Used the AI agent to scaffold, debug, and verify features across the full codebase.
- **Cloud Deployment & Real-Time Features:** Deployed to Render via GitHub CI/CD. Implemented real-time messaging with Socket.IO and background jobs with BullMQ + Redis.
- **Firebase Auth & Security:** Integrated Firebase Authentication and firebase-admin. Secured with JWT tokens, bcrypt hashing, rate limiting, and Zod validation.
- **Animated Gesture-Based UI:** Built an interactive UI with Framer Motion. Includes drag gestures, animations, and geolocation-based filtering.
- **Safety, Moderation & Image Pipeline:** Added block/report features and transactional email via Resend. Processed images with Sharp (resize + EXIF stripping). Structured as a TypeScript monorepo with Docker Compose.

2. AI-Assisted Software Testing Agent

Tech Stack: Python, Playwright, Streamlit, OpenAI API, SQLite

- **Automated Test Generation:** Creates positive, negative, and boundary test cases directly from text requirements using AI and built-in rules.
- **Live Browser Automation:** Uses Playwright to type, click, and execute test steps on live websites while capturing visual screenshot proof.
- **AI Defect Diagnosis:** Automatically analyzes test failures and highlights exact root causes without hallucinations.
- **Interactive Web Dashboard:** Built a 7-tab Streamlit dashboard to create test cases, track test runs, and export reports to Excel and PDF.
- **Built-in Security Controls:** Restricts testing to allowed domains, blocks private IPs, and automatically masks passwords in logs.

EDUCATION

- **MCA - Computer Applications**

  Nehru College of Management, Bharathiyar University

- **B.Sc Computer Science**

  College of Applied Science Vadakkenchery, Calicut University

- **Class XII (Computer Science)**

  Bhavans Vidhya Mandir Chithali, CBSE

PROFESSIONAL ACHIEVEMENTS & AWARDS

- Completed the 1 Million Prompters Initiative, a certification programme launched by the UAE Government to promote AI awareness and practical AI skills.
- Received Quarterly Reward & Recognition award for outstanding performance and quality contribution.
- Volunteered in organizing inter-college tech and gaming events with over 100+ participants.

PROFESSIONAL SKILLS

- Manual Testing
- Functional & Regression Testing
- Bug Tracking & Reporting (JIRA)
- Test Case Design & Execution
- Mobile App Testing (Android & iOS)
- Smoke & Sanity Testing
- API Testing
- Generative AI (GenAI)
- Vibe Coding
- Microsoft Excel
- Multitasking
- Communication Skills
- Time Management
- Quick Learner
- Attention to Detail
- Familiar with QA Concepts & Methodologies
- Google Antigravity

ADDITIONAL INFORMATION

- Gender : Male
- Nationality : Indian

DECLARATION

I hereby declare that all the details in the application are true, complete and correct to the best of my knowledge and belief. I assure you that, if given an opportunity, I would put the best of my skills and talents to build my career as well as to meet your expectations.
